You hold in your hand a parchment paper envelope, sealed with the mark of the Weavers. You've heard of this Fellowship, seekers and sages who share their knowledge, experience and support in pursuit of an exciting tarot adventure.

Breaking the seal, you open it to reveal an invitation to join the Fellowship.

ABOUT THE *Fellowship*

What is the Fellowship Practice?

The Fellowship Practice is a narratively driven guided Tarot practice that will take you on an exciting adventure of self-discovery and creative expression with your cards. Every month you'll be tasked with a new quest which includes activities, tarot spreads and for those who are interested, an element of game-play.

How exactly does it work?

As part of the Weavers membership, you'll gain access to the Monthly Quest Log PDF which provides you with all the material you will need to engage with the practice throughout the month. Each month also includes an instructional video that includes any additional information that may be helpful throughout the month.

Each week you'll have three prompts, activities and/or spreads to help you connect with your cards and enrich your current Tarot practice. As a narrative journey, the Fellowship Practice is presented as an ongoing adventure. While there is an overarching story that ties the entire practice together, each month also has a specific theme which will allow you to make use of different types of decks and/or tools throughout the year.

Do I have to engage with the story to participate?

The narrative story is layered over the top of the monthly guided practice and can be ignored if you do not wish to engage with it. Meaning, you can take the prompts and activities as they are and simply skip the story elements.

I heard we need dice, how does that work?

Similar to the story layer, the Fellowship Practice also includes a game-play element for those who wish to engage with it. This does include the use of a few dice including the iconic 20-sided die we see in a lot of role-playing games. How the dice are incorporated depends on the activity, detailed instructions will be included with each activity.

What if I don't want to use the dice?

Much like the story element, you can simply choose to skip over the game elements that have been woven into the practice.

Do I need any particular decks or tools to participate?

You only need one Tarot deck to engage with the practice. However, you may find incorporating a variety of decks and systems will enrich your experience of the practice. You may choose to work with any combination of Tarot, Oracle or any other divination system.

Yes, you can join the adventure at any time. Upon joining the Fellowship, you will gain access to all the information you need to meet us where we are on this adventure.

Do I need to go back and do the past months if I join after January?

Upon joining the Fellowship, you'll gain access to the Adventure Diary for a quick recap of the story so far. This means that you do not have to go back and complete previous months unless you want to. You can simply jump in where we are. Or if you wish, you can start from the beginning and complete the adventure in your own time.

Do I have to do this with everyone else or can I do it on my own?

While we do have a Discord (and other live events via YouTube) set up to share this adventure with other Weavers, you are welcome to engage with it on your own. It can be experienced as a shared journey, a solo adventure or a combination there of.

How long does this practice run?

The current adventure will run from January 2024 to December 2024. The materials will only be available to members during this time. This means that in January 2025 all materials for this adventure will be removed and we will likely begin a new adventure or practice at that time.

I am ready, where do I begin?
